**KEEP HOUSEHOLD HAZARDOUS WASTE OUT OF THE TRASH!****Procedures for packaging and transporting items to a HHW drop-off:**

- ✓ Keep products in their original containers. Do not mix products and make sure lids are tightly sealed. Label materials that are not in their original containers.
- ✓ Place leaking containers in a larger, plastic container with a tight-fitting lid.
- ✓ Secure products upright in a cardboard box so they do not tip over in transport.
- ✓ Transport products in the back of a pickup truck or in a car trunk. Ensure adequate ventilation if transported inside a passenger vehicle.
- ✓ Keep flammables out of direct sunlight and away from sources of heat, spark, flame, or ignition. Do not smoke near products.
- ✓ Remain in your vehicle upon arrival at the facility, prepare to show your driver's license, and allow staff to off-load your waste.
- ✓ Do not put motor oil in any container that was used for bleach, acid, or flammable liquid.
